

## With the CareConnect Wellness Program\*, it pays to be healthy.

Need a little extra push to get healthier? As a CareConnect member, you can enjoy exclusive rewards, reimbursements and savings when you participate in our Wellness Program. Getting and staying healthy in 2017 can really pay off!

### **Patient Assessment Form: Earn up to \$200 in gift cards per family.**

When you go for your annual physical, your physician can fill out a voluntary patient assessment, earning you a \$100 gift card. We'll make the same offer to your covered spouse, for a total of \$200 in gift cards per family. We encourage you to use the gift card to promote your healthy lifestyle.

### **Gym Reimbursement: Up to \$600 per family every year.**

Gyms and health clubs can be costly, but not as costly as being out of shape. That's why we'll help you pay for your membership. If you visit the gym or exercise class enough times and submit the required documentation, we'll reimburse you up to \$400 per plan year. And we'll reimburse your covered spouse up to \$200 per plan year for a total of \$600 per year per family!

### **Walk or Run Reimbursements: Starting now, it pays to get moving.**

One of the best ways to get and stay healthy is to start moving—without your car that is. So in 2017, we'll reimburse up to \$100 per plan year of entry fees for certain organized walks or runs of one mile or more. And we'll do the same for your covered spouse.

### **Healthy Discounts: Big savings in health & wellness.**

You and your family can enjoy exclusive discounts at well-known gym facilities. Visit our website for current offers. It's just one more way we make it easier and more affordable to get and stay healthy.
