

Making It Easy to Get and Stay Healthy

CareConnect isn't just health insurance—it's healthier insurance. We were created by Northwell Health to make it easier for you to get and stay healthy, so we offer you access to some of the best doctors and hospitals in the New York area—at prices that are easier to pay.

Savings of up to 20% or more

You can save a lot of money on monthly premiums when you pick an insurance plan from us instead of a "big name" insurer. Our unique partnership with Northwell Health and other like-minded health care providers allows us to work more efficiently to get you the care you need.

Access to top providers

Our network is made up of Northwell Health hospitals, doctors and other clinicians, as well as other carefully selected providers and facilities throughout the New York metro area that have earned top ratings and national and local honors for their superior care. We also provide access to more than 1,000 urgent care centers and walk-in clinics.

Insurance without the hassle

When you call us, you reach a human being, not a machine. Our customer service representatives, called Service Connectors, can find you the right doctor, make your appointments, explain your costs, answer your questions and make sure you get any other help you need. And you never need a referral to see a specialist in our network! Our mission is to make health insurance, and health care, easy.

If you want *healthier* insurance, connect with us.
